The following is an examiner's statement of reasons for allowance:

Regarding claim 43, recapture does not apply in this case as claim 43 is materially narrowed by inclusion on an overlooked aspect of the claim (quoted ahead), as best understood by the examiner this overlooked aspect of the "...locking mechanism...relative to said tilt pivot axis..." has not been previously claimed in any claim during prosecution of the patent and is a limitation which makes claim 43 patentable as it is not found in any of the known prior art, or it would have not been obvious to one of ordinary skill at the time the invention was made to have modified Yant (US 3,235,284) to have the claimed limitation. Claim 43 is thus patentable solely because of the above noted limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Scott Lowe whose telephone number is (571)272-6929. The examiner can normally be reached on 6:30am-4:30pm M-Th.
